Chapter 271: Securing the Weaknesses

---

1. The Changing Face of Earth

Centuries had passed since Sung Jin-Woo and Sung Su-Ho had left Earth behind. The planet they once called home had evolved dramatically:

A New Era of Humanity:

New generations rose, and with them, new leaders, cultures, and civilizations emerged.

For those who once stood beside the Divine Triad, Earth had become foreign, a place where their memories no longer aligned with the present reality.

Disconnected from the Mortal World:

Friends and colleagues of the Divine Triad, who had once lived normal lives on Earth, now found themselves distanced from its ever-changing landscape.

---

2. Recognizing Vulnerabilities

Sung Jin-Woo and Sung Su-Ho realized a critical weakness:

The Threat of Vengeful Immortals:

As the Sung Clan’s power grew, so did the number of enemies—immortals and powerful beings who sought revenge for past defeats.

Friends, colleagues, and their families were vulnerable targets for these vengeful immortals.

A Need for Protection:

To eliminate this vulnerability, the Divine Triad sought to relocate everyone they held dear to the Absolute Realm, where they would be safe under divine protection.

---

3. Relocation to the Absolute Realm

The operation to move their friends, colleagues, and their families was meticulously planned and flawlessly executed:

A New Home in the Palace of the Divine Legacy:

The Palace, now the size of Jupiter, offered more than enough space for everyone.

Friends and families were given luxurious accommodations, befitting their relationship with the Divine Triad.

Ensuring Safety:

The Absolute Realm was impenetrable to external threats, sealed off from malicious forces.

Protected by the Divine Triad’s power, the realm became a sanctuary for those closest to Sung Jin-Woo and Sung Su-Ho.

---

4. Emotional Resolve

While the relocation ensured safety, it was not without emotional weight:

A Difficult Goodbye:

For their friends and colleagues, leaving Earth meant saying goodbye to their mortal heritage.

Yet, the prospect of eternal safety and unity with the Divine Triad eased the transition.

Strengthening Bonds:

Sung Jin-Woo and Sung Su-Ho promised their friends and families that they would always have a place in the Absolute Realm, reinforcing the trust and loyalty between them.

---

5. A Realm of Absolute Protection

With this relocation, Sung Jin-Woo and Sung Su-Ho achieved their goal of eliminating vulnerabilities:

No Weakness Left to Exploit:

By moving their loved ones to the Absolute Realm, they removed any leverage their enemies might have had.

The Divine Triad could now focus entirely on their divine duties and the multiverse's balance.

A New Chapter for Their Loved Ones:

Friends and families adapted to their new immortal lives in the Absolute Realm, finding purpose and joy under the Divine Triad’s guidance.

This chapter highlighted the Divine Triad’s foresight and determination to protect those they cherished, ensuring their safety in the Absolute Realm. It marked the final step in severing all ties to mortal vulnerabilities, allowing the Divine Triad to stand as truly unassailable entities in the multiverse.
